Explanatory Notes

All report information gathered from publicly available sources including store circulars, newspaper ads, and supermarket websites.

1/: FEATURE RATE: the amount of sampled stores advertising any consumer grade of shell eggs during the current week, expressed as a percentage of the total sample. **2/: ACTIVITY INDEX:** a measure of the absolute frequency of feature activity equal to the total number of stores for each advertised consumer grade of shell egg. (e.g., a retailer featuring XL and LG eggs in 100 stores would have an activity index of 200.) **3/: STORES/AVG:** the total number of advertising outlets and the weighted average price weighted by the respective number of outlets. **4/: SPECIAL RATE:** the percentage of sampled stores with a no-price promotion (e.g., buy 1, get 1 free, etc.)
